

CALIFORNIA / LOS ANGELES EVICTION PROCESS OVERVIEW

NON-PAYMENT OF RENT CASES

Evictions can be very detailed and many variables could change the entire proceeding. Therefore, it is almost impossible to produce a chart that will fit every eviction scenario. The most common evictions, however, follow a general process when dealing with non-payment of rent cases.

The following is not meant to be legal advice. Legal counsel should be obtained for representation during an eviction in California. A slight misstep could cause a landlord to have to re-file and start the process over again, losing both time and money.
